GENERAL FACULTIES COUNCIL

The regular meeting of General Faculties Council was held on Monday, 31 January. The following matters were among those discussed.

Course Guide and Evaluation Questionnaire

Council adopted the following proposals (amendments incorporated) from the Academic Development Committee relating to the joint University-Students' Union Course Guide and Evaluation Questionnaire:

1. that a joint faculty/student committee be established to consider matters related to student evaluation of instruction;
2. that the composition of the joint committee be as follows: four members of the academic staff, three of whom are to be elected by GFC and one to be selected by and from the Committee to Investigate Teaching; and four students, three to be selected by the Students' Union and one by the Graduate Students' Association;
3. that the joint committee address itself initially to the questions of devising appropriate procedures for the student evaluation of instruction and for reporting the results thereof to faculty and students, and that the joint committee submit its recommendations to the Academic Development Committee for its consideration prior to submission to General Faculties Council.

The proposals had originated in a report from the Committee to Investigate Teaching to the Academic Development Committee. That report had outlined the value of student evaluation to both students and faculty and thus the necessity of having a joint student-faculty committee to devise the procedures by which this evaluation would be made.

Search Committees for Presidents and Vice-Presidents

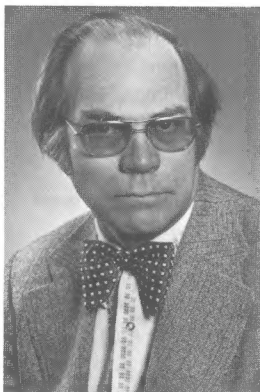

Council corrected a misunderstanding arising from the GFC meeting of 20 December 1976 concerning the composition of Search Committees for Presidents and Vice-Presidents, as proposed by the Board of Governors and amended by both GFC Executive and Council.

At that meeting, Council had approved a motion that, of the four academic staff members chosen to serve on the Search Committees for Presidents, one member would be appointed by AASUA, one member be appointed by General Faculties Council, and two members of the full-time faculty be elected

APPOINTMENTS

Burton M. Smith, Associate Professor of History, has been appointed the first Dean of Students, the chief administrator of the restructured Office of Student Affairs, the major source of information and assistance for students. Dr. Smith received a BA from the University of Montana in 1958, an MA in 1962, and a PhD from Washington State in 1969. Before coming to this University, he taught at a Montana high school and was Chairman of History at Skagit Valley College in Mount Vernon, Washington. In 1972, Dr. Smith became an Associate Professor here. From 1972 to 1974 he was Chairman of History's Graduate Studies Committee, and in the summer of 1973 he served as Acting Chairman of History. During 1971-73 he was an Executive member of the AASUA and was Vice-President in 1972-73. Much of Dr. Smith's historical research relates to minority history.

Roy T. Berg, Professor of Animal Science, will become Chairman of that Department on 1 July. Dr. Berg received a BSc in Agriculture from this University in 1950, and he has an MSc and a PhD from the University of Minnesota. Since joining the University staff in 1954, Dr. Berg has travelled to Australia as a National Research Council Senior Research Fellow and has been a visiting Professor at the University of Edinburgh and the University of Copenhagen. The author of more than fifty papers and the co-author of a text, Dr. Berg frequently contributes to farm publications. His research, much of it on animal genetics, has received consistent recognition from both the Alberta Agricultural Research Trust and the National Research Council. In 1976, Dr. Berg was awarded a Fellowship in the Agricultural Institute of Canada. Currently he is on a sabbatical leave, studying in Denmark.

by full-time faculty members of the academic staff at large.

At the 31 January meeting, this composition for the academic staff component of the Search Committees for Presidents was extended to the Search Committees for Vice-Presidents.

Nominating Committee

The following individuals were elected to these committees.

Selection Committee for Dean of the Faculty of Dentistry: Lloyd Gridale, Medicine.

Selection Committee for Chairman of Linguistics: Kenneth Gough, Speech Pathology.

Selection Committee for Chairman of History: R.J. Buck, Classics.

Ad hoc Committee on University

Professorships: M. Stiles, Home Economics;

R.S. Patterson, Educational Foundations; and

L.C. Green, Political Science. Professor

Green is a University Professor.

Academic Development Committee/Campus Development Committee, cross representative:

G.R. Davy, Political Science.

Campus Development Committee: J.B.

McQuitty, Agricultural Engineering.

University Planning Committee, Graduate

Student member: Peter Retallach, Graduate

Student, Business Administration and

Commerce.

BOARD OF GOVERNORS

The regular meeting of the Board of Governors was held Friday, 4 February. The following items were among those considered.

Clinical Sciences Building

High winds in the early part of November revealed a fault in the fastening of the large concrete panels serving as exterior cladding on the upper levels of the Clinical Sciences Building. It is estimated that the total cost of repairs could be as high as \$1.5 million. No funds are available without special assistance from the government. The Board

Building Committee stressed that the work must be completed and investigation is proceeding nonetheless to assure the safety of the building and to avoid conflict with the construction of the Services Corridor Phase VII and the Health Sciences Centre Project.

Memorial Organ

The Building Committee reported that the memorial organ in Convocation Hall has been sold for \$5,500 plus cost of removal. The purchaser has moved the organ to Abbotsford, British Columbia where he intends to rebuild it for installation in a church. The University retained the pipes which form part of the front facade of Convocation Hall so the visual appearance of the Hall will not be altered.

German, Belgian, and French Graduate Exchange Scholarships

The Board approved an increase in the value of each of the four German, Belgian, and French Graduate Exchange Scholarships from \$4,000 to \$4,125 to compensate for the 1976-77 tuition fee increase.

The exchange scholarship plan was initiated in 1970 and is sponsored by the Killam Non-Restricted Fund. The program provides for five scholarships, three with France and one each with Belgium and Germany. The Belgian scholarship is now inactive due to complications at the federal level. However, it is expected to resume in the near future.

Extension of Exchange Graduate Students Program

The Board approved a recommendation of the Finance Committee that there be an extension of the Exchange Graduate Students Program with participating universities in Manitoba, Saskatchewan, Alberta, and British Columbia for the 1976-77 and 1977-78 academic years. However, the program is possible only if the course of studies the student wishes to pursue cannot in any way be duplicated at his or her home institution.

The Program allows for the remission of tuition, application, and registration fees for exchange graduate students from universities in the four western provinces, provided that reciprocal action is taken by the other western universities.

Health Sciences Centre Interim Parking Needs

At its meeting on 5 November, the Board agreed to assist the Health Sciences Centre

planners by providing about three hundred parking stalls for up to a maximum of five years while about the same number of their present parking stalls are lost to the proposed construction site.

The original plan to provide this assistance by temporarily assigning half of the Corbett Hall area met with considerable opposition. Students offered to reduce their parking needs and when this was combined with some existing and unassigned University stalls in the south part of the campus, it was possible to meet the Board's commitment without using any of the green space south of Corbett Hall. The plan to use the Corbett Hall area is now abandoned and the total area will remain for recreational use. The cooperation and help from the Students' Union in resolving this matter was acknowledged by the Board.

Graduate Assistant Policy

The following policy statement on Graduate Assistance has been rescinded: "A full-time graduate student may not concurrently hold more than one full G.Ap. in the University" and the following policy statement has been substituted: "A full-time G.A. may not accept any other employment for which payment is made from funds administered by the University. A full-time student who is a part-time G.A. may accept other employment for which payment is made from funds administered by the University, but the total number of hours per week he may devote to such employment shall not exceed twelve (i.e. equivalent to a full G.Ap.)."

Two reasons were noted for this change. Firstly, there has been a growing tendency of some departments to try to hire full-time students who hold full GAp's for additional work at rates which make it obvious that the student is being allowed to spend too much time as an employee and too little time as a student to the detriment of his academic progress. The inevitable result of a continuation of this practice will be a lengthening of the students' programs by at least one year with the consequent higher costs to the University. Second, the tendency for departments to make it possible for students to earn more than scholarships provide has the effect of discouraging the better students from applying for scholarships.

THE UNIVERSITY OF ALBERTA NATIONAL AWARD IN LETTERS

Since 1951, the Board of Governors of the University of Alberta has offered National Awards to Canadians who have made distinguished contributions over a period of time to the development of letters, music, and painting and the related arts in Canada.

The awards, in the form of gold medals, are presented to the recipients at the Banff School of Fine Arts in July as part of the Scholarship Night ceremonies.

Originally, awards were offered annually in all three fields. Since 1961, the Awards have been rotated annually through Music, Letters, and Painting and the Related Arts.

This year the award will be given in Letters. Nominations of suitable persons are invited and should be sent, by 21 February, to Henry Kreisel, Chairman of the Selection Committee, Department of Comparative Literature.

CHEMICAL WASTE MANAGEMENT

In about a month's time, the University's new Chemical Waste Management Facility, located at the Ellerslie Research Station, will go into operation to begin destroying some 8,000 gallons of hydrocarbon wastes generated by University laboratories over the past five years. The University's Radiation Control Committee manages the facility, and it is run by staff from the Radiation Control Office.

Stuart Hunt, Radiation Protection Officer, says that the facility will demonstrate the University's desire to set an example in the field of toxic waste management. With safety and the demonstration of sound waste management practices, the facility will handle wastes by incineration, dilution, and recycling.

Prior to April 1971, chemical and low-grade radioactive wastes were incinerated in a pit north of Devon. The new facility has a gas-fired liquid waste incinerator with a capacity of fifty gallons per hour and a small open-top incinerator to handle inflammable and potentially friction-sensitive materials such as ether. Solid low-level radioactive wastes will be stored until they can be classified as non-radioactive and thus treated as conventional wastes. A heated storage building with dilution tanks and compactors for chemical and low-level radioactive wastes is also on the site. All oils will be recycled. The facility does not have the capacity, however, to destroy explosive materials or pesticides, and it is not designed to handle chlorinated hydrocarbons or carbon tetrachloride.

The principal air-borne effluent from the facility will be steam; other effluent will go into a 20,000 gallon retention lagoon. The University and Alberta Environment will monitor water quality in the lagoon periodically.

By agreement with the provincial government, the University is obliged to dispose of wastes at the request of Alberta Environment. There have already been a number of inquiries from government and private agencies, but it will take about six months to dispose of current waste.

FEE DIFFERENTIAL REJECTED—AGAIN

A.E. Hohol, Minister of Advanced Education, had asked the Board of Governors, at its 4 February meeting, to consider a proposal for increasing tuition fees for certain classes of foreign students effective September 1977. His department favored a three hundred dollar increase in fees to be levied against foreign students who are on visas, but only those students coming to this University for the first time, whatever their category or country of origin. In addition, the fees for foreign part-time students would be pro-rated proportionately. Board members turned down this proposal. In spite of their decision, the good Minister has declared that the increase will definitely go into effect.

The issue is a delicate one. The Chairman of the Board, E.A. Geddes, in a memorandum distributed to members, stated that Dr. Hohol "is uncomfortable with having to put this to us on a 'political basis'" and stated that there is "no other basis on which it could be dealt with," since there is "no rational or orderly process by which we could come to the conclusion that this amount of fee [is] the correct one." The majority of Board members remain unconvinced about the basic principle underlying any increase. It was also noted that, despite various attempts to receive further, concrete information from the Minister behind the rationale for a differential system, he has not been forthcoming with any information whatsoever.

Dr. Gunning stressed an important point at the Board meeting. He said that it must be made clear to the public that the Board's decision to turn down a two-tier system of fees should not be seen as a "confrontation" with the Department of Advanced Education. Rather, he stressed the University's role, not only in the community, but also on a global level. And that role is humanitarian. Further, he suggested that the University must uphold "truth as we see it." To implement such a system would destroy the international aspect of education at this institution.

Most Board members considered Dr. Hohol's system to be of a discriminatory nature having a serious, detrimental effect on universal education in general and on the education of third world students specifically. Many were adamant in supporting foreign students at this University, stressing the valuable contribution that these students

make to the academic life on campus.

Two members, however, favored the increase. They suggested that a political decision has been made and that it would be futile to oppose that decision. The phrases "biting the hand that feeds us" and "upsetting the apple cart" formed the base of their argument. But, the other members saw fit to realize more pervasive consequences of accepting Dr. Hohol's proposal and were willing to maintain and defend the only decision that would accredit this University with the dignity required in the face of such a two-tier scheme: a rejection of Dr. Hohol's proposal. It is one of the finest decisions that the Board of Governors has made during this academic year, a sign that it is acting for and with a student community. Thankfully, there were only two Board members in a very visible minority.

NOTICES

COMMITTEE VACANCIES

The General Faculties Council Nominating Committee is seeking nominations for these committees.

1. Selection Committee for Chairman of the Department of Educational Psychology.

2. Selection Committee for Chairman of the Department of Secondary Education.

Regulations governing the composition of Selection Committees for chairmen of departments require that one member, not a member of the department concerned, be elected by GFC.

3. GFC ad hoc Committee on Student Evaluation of Instruction.

The Nominating Committee is seeking nominations for three members of the academic staff to serve on the ad hoc Committee on Student Evaluation of Instruction, established by GFC at its meeting on 31 January 1977. Those who have suggestions for nominations or who are interested in serving on any of these three committees are requested to contact the Secretary of the Nominating Committee, 1-15 University Hall, telephone 432-4715.

STUDIO THEATRE AUDITIONS

Studio Theatre will be presenting a production of Arthur Schnitzler's *The Lonely Road* (*Der einsame Weg*) between 28 April and 7 May. The play, rarely seen, will be in a new translation. It is one of the masterpieces of Austrian theatre; set in turn of the century Vienna, it is concerned with time and mutability, and is reminiscent of both Chekov and Ibsen.

Auditions will be held on 14 February at 7 p.m. in 2-43 Fine Arts Centre. Parts available include five men (two in their

mid-fifties, two in their mid-forties, one in his early twenties) and three women (two in their mid-forties, one in her late twenties or early thirties). Casting will be roughly according to age. All interested members of the University community are welcome to audition.

If attendance at the audition is not possible, or if a private audition is preferred, Simon Williams, telephone 432-2472, or the Drama Department General Office, telephone 432-2271, should be contacted.

UNIVERSITY WOMEN'S CLUB

The University Women's Club is sponsoring two fashion shows on 28 February at 2 p.m. and 8 p.m. at the Mayfield Inn. Vernis McCuaig of Peggi Adams will commentate fashions from Image Ladies' Wear, Inside-Out, and Trute Perfect Furriers. Admission is \$3 and tickets are available from Margaret Skelley, telephone 436-6851, at participating stores, and at the door. Admission includes coffee and door prizes.

SWEDISH MASSAGE

Swedish massage is now available adjacent to the sauna in the Ladies' East Locker Room in the Physical Education Centre between the hours of 12 noon and 2 p.m. and 4 p.m. and 6 p.m. Monday through Saturday. For further information telephone the Women's Equipment Room, 432-3568.

APPLICATIONS FOR FUNDING

The Alma Mater Fund has funds available to assist groups on campus to finance worthwhile projects. The Fund is the University vehicle through which alumni are solicited for contributions each year. Gifts are also made to the Fund to be used for projects that will give an added dimension to University activities.

Criteria for projects are minimal, but projects should not be of a type normally funded from general University operating or research funds, not be for individual students to advance their academic careers (for publishing theses, etc.), nor be for salaries per se. They should be strongly oriented toward the student community.

Deadline for applications is 28 February 1977. Application should include descriptions and budget of the project and background information on the group making the application. Applications should be submitted to Lorne MacPherson, Secretary, Alma Mater Fund Allocation Committee, 849 General Services Building, telephone 432-4256.

DATA ENTRY SERVICE

Computing Service's Data Entry Service will type in, format, and edit manuscripts on the computer system. Completion time for small jobs is generally one or two days; rush jobs cost \$7.25 per hour; regular jobs, done on a

first come, first served basis, cost \$6.40 per hour. For further information contact Ella Ritz, 302 General Services Building, telephone 432-5442.

RADIATION SAFETY COURSES

The Radiation Control Committee is planning to hold another series of Radiation Safety Courses for individuals using, or planning to use, radioactive materials at the University.

These courses are designed to give individuals, primarily at the technician level, some basic training in the safe use of radioactive materials in the laboratory. However, graduate students, faculty members, and other interested individuals are welcome.

The next course is scheduled to begin 7 March. Enrolment in the course is restricted to fifteen persons. Individuals interested in attending a course can obtain registration forms from the Radiation Control Office by telephoning 432-5655. There will be a fee of \$1 per course participant to cover the cost of training manuals.

VISITING PROFESSOR AT ST. STEPHEN'S

Kyaw Than, Burmese teacher of history and lay theologian, is visiting this week at St. Stephen's College and with several groups on campus and in the Edmonton area. He will be speaking on issues of human liberation, third world development, and the ecumenical stance of the churches today.

**ALBERTA CULTURE SPONSORS
PLAYWRITING COMPETITION**

Amateur and professional playwrights resident in Alberta are invited to enter the Tenth Annual Playwriting Competition sponsored by Alberta Culture. First, second, and third prizes are awarded in three categories: adult full length, adult one-act, and highschool. The grand prize for the first category is \$1,000. Manuscripts are judged by a panel of independent professionals, and comments and suggestions are offered on each work.

Application forms must be completed by 15 February and may be obtained from Alberta Culture, Performing Arts Branch, Eleventh Floor, CN Tower, 10004 104 Avenue, Edmonton T5J 0K5.

RESEARCH GRANTS

**Canadian Wildlife Service
Research Support Fund**
The purpose of this program is to provide financial assistance to registered graduate students carrying out graduate research in the field of wildlife (non-domestic animals). The following guidelines have been established in order for an applicant to be considered for assistance under the University Research Support Fund:

The proposed project could deal with any species of wildlife, wildlife communities, or wildlife habitats. Projects dealing with fishery resources are excluded.
In the field of post-graduate studies, the applicant, a university professor at a Canadian university, should be the principal supervisor of a student registered for post-graduate work. He or she must perform research in Canada and must be the supervisor of a student with Canadian citizenship.
Financial support will be for one or two years only for a given research project. However, support for a second year will be based on achievements during the first year of the project and on the report submitted near the end of the fiscal year (15 March). A new application must be submitted if support for the second year is to be considered. Financial support for one year will not exceed \$2,500.
An application will be considered only if the project deals with research in the field of wildlife. The proposed project need not be directly related to Canadian Wildlife Service activities or programs.

In order to ensure consideration of projects, applicants should take note that applications must be received by no later than 1 March 1977. Applicants will be advised of the results of the Committee's decision approximately 1 April.

Selected applicants will be offered a contract between the Canadian Wildlife Service and the University's graduate school or other designated agency or department. The contract will include requirements for a report on the research project and for a financial statement. Administration charges that may be required by the university are included in the contract. Application forms are available at Canadian Wildlife Service in Ottawa and the Research Grants and Contracts Office, 3-31 University Hall, telephone 432-2002.

FELLOWSHIPS, SCHOLARSHIPS, AND AWARDS

Cultural Assistance Awards

Alberta Culture invites applications to its 1977 Cultural Assistance Awards program. Any Alberta artists or arts administrator participating in dance, drama, music, creative writing, or visual arts may apply under the program for a grant to assist in improving his or her qualifications or skills.

Cultural Assistance Awards offer the individual an opportunity to pursue studies at local, provincial, national, or international institutions and universities or take independent studies under established artists.

Applicants are evaluated by an independent adjudication board comprising professionals in the artist's own discipline. In some cases interviews or auditions are arranged prior to final decisions. Alberta Culture offers Cultural Assistance Awards annually in amounts varying from \$100 to \$750.

Deadline for receipt of application forms for this year's program is 15 February. Application forms and further information are available from Alberta Culture, Cultural Assistance Awards, Eleventh Floor, CN Tower, 10004 104 Avenue, Edmonton, Alberta T5K 0K5.
